To Our Friends and Valued Business Partners,

This morning Harris County (Houston, Texas) issued a stay-at-home order to all residents and non-essential workforce for the period Wednesday March 25 through Friday April 3. While a portion of our business is considered essential because we support defense, aerospace, agriculture, energy, transportation, and other critical sectors, we believe the spirit of the order compels us to reduce on-site staff immediately. We will therefore be operating with a reduced staff beginning immediately through April 3, and perhaps longer if necessary.

During this time, our entire front-office staff will be working either in the workplace or remotely, and will be able to continue to provide the best customer service in the industry. Our shipping and receiving departments will still be open to send and receive packages, although perhaps at reduced capacity. Our production department will continue to operate to support designated essential business sectors and will also be able to produce urgent and priority orders.

As a separate project, we are also exploring how to convert a portion of our factory to manufacture medical equipment, especially focusing on N95 respirator masks. If you have any knowledge or guidance to contribute to this effort, we would love to hear from you.

Please know the Accumulators, Inc. team appreciates your friendship and continued partnership. Our first priority is to keep everyone safe and healthy.

Best Regards,
Your friends at Accumulators, Inc.
