Dimensions are nominal and may vary within manufacturing tolerances. For exact dimensions of our stock, please contact Acc Inc in advance of order.

Mounting collars are available in increments of 1/4" from 2" OD to 20" OD (AI-CLR-200 through AI-CLR-2000). Please contact us for more information.

Mounting collars are sold in kit form, including the appropriate adjustment bolts and rubber cushions. Mounting bolts are not included. Stainless collars are 300 series stainless.

These collars are mounting fasteners only and are not intended to support the entire weight of an accumulator. Contact us for specifications.
